Great - if you can get me the results of your testing in Dimock I would really appreciate it. We need to make some decisions regarding Cabot and I would like to have as much information as possible. Let me know if you think that is doable.

Scott

Will do. Dave said the sampling with ORD went off without a hitch yesterday in Dimock. We're meeting at 8:30 this morning to discuss any trip up there, so I should know more then. Thanks for having Seth round up some data to look at...

Karen,

Can you let me know when EPA plans to be in Dimock?

Thanks - Scott

Seth – can you get Karen sample data from Dimock?

Karen - Thanks for the offer to go to Dimock and meet with residents. I've done that on several occasions already. My inclination is to decline.

So what else is new right?

FYI the Research sampling is taking place at the 2 residences in Dimock today.. **Ex. 6 - Personal Privacy** are the only ones...but also,

Despite the sifting through the calls to find that only 3 of the 30+ calls from concerned citizens are from residents that have well problems, our Regional Administrator's special assistant thinks someone needs to go up there and talk to the residents. Unfortunately the community involvement coordinator who volunteered needs someone technical to go with her and I've been appointed. At this point she wants to knock on the doors of the Carter Road residences and offer to hear their "concerns". They still have not offered to share any data. Could you have someone PDF me some sample data from pre-drilling and post drilling that Cabot took so I know what was known at the time of your Order? If we do this I at least want to know what was there and whether it is anything different, so I can pass it along...

...also anyone you want to send along?? Sometime in the next week or so. The only time I have available is Veteran's day and that Saturday, and maybe Nov 16th-17th, since I have to get **Ex. 6 - Personal Privacy**

I have to head out to an appointment later today but I'll be checking my email later this evening. if you can send anything along.....THANKS!
